INTRODUCTION

1.1 Purpose

The purpose of this document is to provide an interface between the users and Coal Mine Opening/Re-opening Permission system for online application by users and approval. This will assist the users to understand various features of the software and will enable them to operate the software independently on their computers. It will also help to impart training to new users and to clarify doubts and answer queries posed by the users.

1.2 Scope

This user manual is meant for all Coal mines owners who are required to apply for Mine opening/re-opening permission and submit to the Coal Controller's Organisation (CCO) and are expected to use the system for the permission and the officials of CCO from Headquarters and Regional Offices who will scrutinize and examine those applications filed by the users and grant / reject the permission on case to case basis based on observations.

1.3 Brief Overview

Mine Opening/Re-opening Permission is required by the mine owners to initiate mining operations in the said mine. Mine may have multiple seams and permissions for opening may be sought for single seam or for multiple seams or a section of seam by the owner of the mine.

There may be requests where mine had been closed due to some reason and now re-opening is required by the mine owner, they need to apply for the mine re-opening permission as well, no mine operations can be started until the permission has been obtained from CCO, for the minute scrutiny and site inspection reports CCO send it further from its headquarters to its the regional offices. Based on the physical verification by regional officers and their observations, CCO grant /reject the permission to the user.

Following are the stakeholders for the process:

- 1) Applicant mine owners seeking permission
- 2) CCO Headquarters
- 3) CCO Regional offices (at 7 coal bearing States)

1.4 Summary of Flow

Online Coal Clearances System	Version 1.0	Release Date- 01/10/2016
-------------------------------	-------------	--------------------------

Description of Workflow:

New Users are required to register into the system and generate login credentials. After successful registration, one activation link is sent on the registrant's given email ID in the registration form. User has to activate the link to use the login credentials to login into the system.

Once user is logged in into the system, new application for permission can be filled by him and submitted. The filled application is received by CCO Hqrs who examines the application and if not found in order, can revert to the applicant for correction and re-submission. The accepted applications are forwarded by CCO Hqrs to concerned Regional Officers for verification, physical examination and observations. Regional officers may submit report to CCO Hqrs as many times and CCO HQrs can revert to regional officers multiple times until CCO Hqrs takes a decision to grant / reject the permission. CCO Hqrs would upload the permission letter in the online system which could be viewed / downloaded by all stakeholders.

The applicants may note that the whole application is divided into 8 parts. Before proceeding to next part of the application form, they must save the application. Once saved, they can come back again and resume the same application from Saved application option. Users can also see the status of their submitted applications. The applications sent back by CCO Hqrs to applicants will show up in View Application Status link on their home page.

1.5 Contact Details / Problem Reporting

Dr. Sujoy Majumdar OSD (Mines) Coal Controller's Organisation KolKata Email: <u>coalcont-wb@nic.in</u>

User Manual

Guidelines for filling in the register form :-

- 1. Company Type: Applicant will select his Company type here, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 2. Company Name: Applicant will enter his Company Name here, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 3. Address: Applicant will enter his Address here, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 4. State: Applicant will select his State here, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 5. Name of Nominated Owner: Applicant will enter his *Name of Nominated Owner* here, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 6. **Designation:** Applicant will enter his *Designation* here, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 7. Mobile: Applicant will enter his *Mobile No*. here, which is mandatory and should not exceed 10 characters. Entry to this field is mandatory.
- 8. Email ID: Applicant will enter his Email ID here, which is mandatory, should not exceed 200 characters and should have (@) symbol. Entry to this field is mandatory.
- 9. Fax: Applicant will enter his *fax* here, which is mandatory, should not exceed 12 characters. Entry to this field is mandatory.
- 10. Telephone Number: Applicant will enter his Phone No., which is mandatory and should not exceed 12 characters. Entry to this field is mandatory.
- 11. Preferred User Id: Applicant will enter Preferred User Id, which is mandatory and should not exceed 50 characters. Entry to this field is mandatory.
- 12. Preferred Password: Applicant will enter the Preferred Password shown next to this text field. Entry to this field is mandatory.
- 13. Confirm Password: Applicant will enter the Confirm Password shown next to this text field. Entry to this field is mandatory.
- 14. Enter Captcha: Applicant will enter the Captcha code shown next to this text field. Entry to this field is mandatory.
- 15. Register: Selecting this button will register the applicant and save the details in the database, also an email will be send to the applicant after successful registration.
- 16. Reset: Selecting this button will reset all fields.
- 17. Cancel: Selecting this button will navigate to the login screen.

Online Coal Clearances System	Version 1.0	Release Date-01/10/2016
-------------------------------	-------------	-------------------------

Login – User will enter the login credentials to login. If Applicant is landing here for the first time, he can register using the register link present on the top of the page.

(Screen 3)

Online Coal Clearances System	Version 1.0	Release Date-01/10/2016	
-------------------------------	-------------	-------------------------	--

***New Users not having Login Credential Code will have to register into the system to generate their login and password. In this Sign-up form (Screen 2) they will be required to submit various details like email, telephone number, mobile number, address, Preferred User Id and Preferred Password details etc.

Email Address should be valid and provided carefully as all communication by the Department will take place at the email address furnished.

Once users fill the Sign-up form and press the **Submit** button, an email will be send to email address which they have given during sign up process. Now they can login and will be navigated to his dashboard.

Guidelines for filling in the login form :-

- 1. Enter Username: Applicant will enter Username he has entered during registration; this is a mandatory field in which maximum 30 characters can be entered. Entry to this field is mandatory.
- 2. Enter Password: Applicant will enter Password provided to him on Registration, this is a mandatory field. Entry to this field is mandatory.
- 3. Enter Captcha: Applicant will enter the Captcha code shown next to this text field, each time the applicant lands on this screen a different Captcha code will be generated, this is a mandatory field. Entry to this field is mandatory.
- 4. Login: Navigate user to his Dashboard.

5.0 Frequently Asked Questions (FAQ)

Question: I am not able to sign-up, password is not being accepted by the system.

Answer: You have to enter a password which has minimum 8 characters. At lease one of the characters has to be Upper Case letter (A-Z), at lease one character should be lower Case alphabet (a-z), at lease one character should be a number (0-9) and it should contain at least one special character. The same has been indicated at "?" in the sign-up form also for reference.

Question: During sign-up, I do not have data to be entered against a mandatory field / item. How to proceed?

Answer: You can enter a hyphen (-) or "NA" in such cases.

Question: I have sign-up successfully but still I am not able to login.

Answer: You have to activate your account before proceeding for login. For this, an activation link was sent at your email address (you provided in sign-up form) after sign-up was successful. You can open your email and click on the activation link first. You can login thereafter.

Question: I have not received activation email.

Answer: You may have entered an invalid email address. You have to sign-up again giving correct information.
